

Q.1. Listening Techniques :

- (1) Non-judgemental listening :- listening to understand the speaker's message, not to formulate your rebuttal or check for agreement.
- (2) Listening for structure :- (Script Review)
- Tracking the talk's logical flow : the thesis, supporting evidence, and transitions
- (3) Listening for detail :- (with script reading)
- Play the audio/video again follow along simultaneously with the interactive transcript/script.
- Pause to look up unfamiliar vocabulary and key phrases.
- (4) Practice and Summarize :- (Audio-only practice)
- Play audio/video one final time. Focus purely on listening, trying to recall the details and language noted in steps 2 & 3 without looking at the screen or script. Summarize the talk's main points and personal takeaways in your own words.

Q 2. various types of speaking modes -

- (1) Formal mode - Giving a speech at a college or official function.
- (2) Informal Mode - Chatting with friends in the canteen.
- (3) Academic mode - Presenting research in a seminar.
- (4) Persuasive mode - Convincing the classmates to support your idea for a social / national cause.
- (5) Narrative mode - Sharing a personal experience in storytelling format.
- (6) Extempore - Speaking spontaneously on a given topic with some preparation time.
- (7) Impromptu - Speaking immediately without any preparation or notice.
- (8) Reading - Delivering a speech by reading a written text aloud.
- (9) Memorizing - Reciting a speech from memory without referring to notes.
- (10) Drill - Practicing repetitive speaking exercises to improve fluency and accuracy.

- (8) Quality - unique characteristics or texture of a person's voice (eg breathy, nasal, rough)

Q. 5 ways to overcome stage fright -

- (1) Start with small group presentations - Practice speaking in front of just a few classmates first to build comfort before facing the whole class.

- (2) use simple warm-up exercises - teach quick warm-ups like humming, tongue-twisters, or stretching to relax the voice & body before speaking.
- (3) Break down the speech - Divide your speech into smaller parts or bullet points so it feels less overwhelming.
- (4) Encourage peer support & feedback - create a friendly environment where classmates provide positive, constructive feedback to boost confidence.
- (5) Practice mindfulness & breathing techniques - do easy breathing exercises to calm nerves, like inhaling deeply for 4 counts and exhaling slowly for 6 counts.
- (6) Practice eye contact with friendly faces - try to focus your gaze on supportive friends or kind faces in the audience to reduce anxiety.
- (7) Positive visualization - Imagine yourself speaking clearly & confidently, picturing a successful presentation.
- (8) Normalize mistakes - Reassure yourself that

small mistakes happen and are normal, and that the audience is usually understanding and supportive.

- (9) voice warm up: Reading a paragraph
- (10) Rehearsal - "aloud to improve clarity."
- (10) Rehearsal - Practising in front of a mirror to check body language
- (11) Controlled gestures - Avoiding fidgeting or pacing too much.
